

## 2-27-25 Baaijen DailyBriefs.info

### Briefing Document: Analysis of Mees Baaijen's Work on "The Predators Versus The People"

#### Executive Summary:

Mees Baaijen's work, particularly "The Predators Versus The People," posits a historical narrative where a secret network, dubbed "Glaflia" (Global Mafia), has been orchestrating world events for approximately 500 years with the ultimate goal of global domination. This network achieves its aims primarily through the manipulation of financial systems (especially usury), the creation and control of nation-states as proxy entities, and the deployment of sophisticated mind-control techniques to maintain public ignorance and consent. Baaijen argues that seemingly disparate historical events and geopolitical shifts are, in fact, interconnected elements of this long-term project, with power cyclically transferring between different hegemonic states (e.g., from Spain to Holland to England to the USA, and now potentially to China/Russia). He believes that the current "multipolar world order" is a deceptive facade designed to mask Glaflia's continued control. Central to Baaijen's analysis is the concept that capital (money and resources) flows from one empire to another, directed and controlled by this global elite. He connects this to the idea that this all started with Phoenician/Venetian and Jewish bankers.

#### Main Themes and Ideas:

- **The Global Mafia (Glaflia):**
- Definition: Baaijen coins the term "Glaflia" as a shorthand for a "crime syndicate of a few hundred dynastic, extremely rich, up to trillions of dollars, and tightly-knit families. not bound to any country, religion or ethnicity."
- Historical Reach: He argues this group has been manipulating global events for 500 years, seeking total domination. This is the basic premise of his book.
- Methods: "Wars, genocide, revolutions, financial control, ecological crisis, theft, extortion, bribery, blackmail, murder, social and geoengineering, perversion of religion, falsification of science, the macity, and the mass media, etc."
- Secrecy: Glaflia operates covertly, ensuring that their existence and influence remain largely hidden from public awareness.
- **The Treachery of Usury:**
- Definition: Baaijen frequently highlights usury, lending money with interest, as a primary tool for exploitation and control. He notes its historical prohibition in Abrahamic religions (Christianity, Islam, and Judaism) as recognition of its destructive potential.
- Debt Trap: Usury creates a debt trap, where continuous compound interest multiplies debt, leading to poverty, bankruptcy, and social instability. A "10% loan will double in seven years."
- Control Mechanism: Through usury, Glaflia gains control over individuals, corporations, and even entire nations, making them subservient to its interests.
- **The Nation-State as Proxy:**

- Instrumental Use: Nation-states are not genuinely sovereign entities but rather proxies used by Glafia to advance its agenda.
- Cyclical Hegemony: Power shifts cyclically between different hegemonic states (Spain, Holland, England, USA), each serving as Glafia's primary agent for a period. China and Russia now are positioned as the next global powers under the same control scheme.
- "So you are mafia, you are organized crime, you need proxies. you you aren't going to do that yourself. So the the proxy is a country and gradually all countries have been made proxies"
- Controlled Democracy: The form of government (democracy, republic) is often a facade designed to legitimize Glafia's control while masking the underlying power structures. He says, "modern democracy is based on a hidden oligarchy."
- **The Importance of Historical Revisionism:**
- Unmasking Deception: Baaijen sees his work as uncovering a hidden history, revealing the true drivers behind major events and challenging mainstream narratives.
- "A massive wake up by we the people is urgently required if we are to end this wicked game. Spread the word and engage in peaceful action."
- Knowledge as Resistance: By understanding the true nature of Glafia's project, individuals can resist its influence and work toward a more equitable world.
- **Mind Control and Ideology:**
- "Menicide:" Baaijen believes Glafia utilizes mass mind control and propaganda (which he terms "menicide") to manipulate public opinion and maintain control.
- False Dichotomies: Ideologies (like Communism, Capitalism, etc.) are often deliberately created to divide people and distract them from the real sources of power. "You can take possession of popular prejudices and passions in such a way as to introduce a confusion of principles which makes Impossible all understanding between those who speak the same language and have the same interests."
- "They instill a methodology in the people, so they think they're part of a very old civilization."
- Mainstream media turns people off from knowing anything, "Turn off the controlled mainstream media and inform yourself through independent journalists, writers, and magazines."
- **The Central Banks**
- Central banking is seen as a critical method through which the elite exert control over a country. Baaijen notes that the establishment of central banks, such as the Bank of England and later the Federal Reserve, marked significant milestones in this process, allowing the elite to issue money as interest-bearing debt.
- "Each time they control a country they set up a central bank that is controlled by the uh the top bankers"
- **Venetian Origins**
- Baaijen, along with some historians he cites, emphasizes the role of Venetian oligarchs and bankers in the early stages of this domination project. He suggests that Venice, with its sophisticated trade networks and banking practices, provided a model for future iterations of the global domination scheme.
- "The practices of the bank, the Boris and the East India Company were all Venetian in origin"

#### **Key People and Entities Mentioned:**

- **Mees Baaijen:** The author and primary voice behind these theories.
- **The Giovani Faction:** Venetian oligarchs seen as key players in the early stages of Glafia's project.
- **Sephardic Jews:** Expelled from Spain and Portugal, they played a crucial role in finance and international networks.
- **Rothschilds:** The banking family is identified as central controllers of finance capitalism in the 19th century.

- **Rockefellers:** Teaming up with the Rothschilds, they became extremely powerful in the 20th century through oil and global corporations.
- **China and Russia:** The emerging powers positioned to take over as hegemons, while still being controlled by Glafia.

#### **Actionable Points (from the "New Dawn" excerpt):**

- "Stop projects to give all poor people in developing countries a bank account or a micro credit. Get out of debt to banks as soon as possible."
- "Set up interest free money systems...Oppose more loss of privacy."
- "Turn off the controlled mainstream media and inform yourself through independent journalists, writers, and magazines. Go organic and slash or grow your own."
- "Support local initiatives like renewable energy generation, food markets, health services and insurance schemes. Keep a healthy lifestyle and avoid big pharma solutions whenever you can."
- "Spread the word and engage in peaceful action."

#### **Criticisms/Points to Consider:**

- **Conspiracy Theory Allegations:** Baaijen's narrative relies heavily on the idea of a coordinated, centuries-long conspiracy, which can be difficult to prove definitively and may be dismissed by some as a conspiracy theory.
- **Oversimplification:** The complex events of world history may be oversimplified to fit the narrative of Glafia's control.
- **Potential for Bias:** The focus on specific groups (e.g., Jewish bankers) can inadvertently reinforce harmful stereotypes if not carefully contextualized. It's important to note that Baaijen suggests that Judaism was used to dupe the Jews and that the Glafia may be part of a larger creation.
- **Lack of Nuance:** The narrative can lack nuance by painting a picture of complete domination and obscuring the role of individual agency and unforeseen events.

#### **Overall Assessment:**

Mees Baaijen's work offers a provocative and unconventional interpretation of history, highlighting the role of financial manipulation and hidden power structures. While his claims require careful scrutiny and should be considered alongside other perspectives, his work raises important questions about the nature of power, sovereignty, and the forces shaping the world. It encourages readers to critically examine mainstream narratives and seek out alternative sources of information.

It is important to note that the ideas presented are controversial and may not be supported by mainstream historical or economic analysis.

Key words [heading in BOLD italics]: List 5 key word from the source material . For each word gives supporting sentences which define, explain and characterize the key word that it pertains to

Here is a structured daily brief summarizing the key takeaways from the provided articles:

#### **1. Baaijen, New Dawn.mp3**

##### **Key Takeaways:**

•

Coming to terms with being misled requires a painful process of cognitive dissonance<sup>1</sup>.

- 

Various groups have been linked to conspiracies for world domination, but they are often pawns of "banksters" who are loyal to no one<sup>1</sup>.

- 

Wars are often designed by banksters<sup>1</sup>.

- 

Empowering people and nations, prioritizing life over money, and reducing dependence on big banks and corporations are essential<sup>1</sup>.

- 

It is important to strive for the prohibition of war<sup>1</sup>.

- 

The designed future resembles Huxley's Brave New World or Orwell's 1984<sup>1</sup>.

- 

Supporting local initiatives, practicing a healthy lifestyle, and avoiding mainstream media are important<sup>2</sup>.

- 

Spreading awareness and engaging in peaceful action are necessary to end the "wicked game"<sup>2</sup>.

- 

Individuals should strive to get out of debt to banks<sup>2</sup>.

- 

Resist loss of privacy through smart meters, the Internet of Things, human microchip implants and surveillance<sup>2</sup>.

**Key words:**

- 

**Cognitive Dissonance:** The painful process of waking up and accepting the truth about a situation<sup>1</sup>.

- 

**Banksters:** Those who hold no loyalty to any race, nation, group, or religion and see others as slaves<sup>1</sup>.

- 

**Sovereignty:** Returning sovereignty to nations with proper international relations is essential<sup>1</sup>.

- 

**Empowerment:** Anything that empowers the people and their nations and favors life<sup>1</sup>.

- 

**Local Initiatives:** Initiatives such as renewable energy generation, food markets, health services and insurance schemes<sup>2</sup>.

## **2. Russia, from sovereign empire to globalist proxy state.mp3**

**Key Takeaways:**

- 

Russia and China have been prepared to take over from the USA as hegemonic leaders of a unipolar world order<sup>3</sup>.

- 

This change is promoted as a benevolent multipolar world order<sup>3</sup>.

- 

All countries are governed by proxies of the "Glacia"<sup>3</sup>.

- 

The USA was captured to become the fourth hegemonic power controlling nation-states on behalf of the Predators or Glaia<sup>3</sup>.

- 

Glaia is a crime syndicate of dynastic, wealthy families, not bound to any country, religion or ethnicity<sup>3</sup>.

- 

Previous hegemonic cycles were carried out by Spain, Holland, and England<sup>3</sup>.

- 

The USA, along with British and Zionist proxies, instigated the 20th century wars<sup>3</sup>.

**Key words:**

- 

**Glaia:** A crime syndicate of a few hundred dynastic families, not bound to any country, religion or ethnicity<sup>3</sup>.

- 

**Hegemonic Power:** A country that controls the world's nation states on behalf of a secret global domination project<sup>3</sup>.

- 

**Multipolar World Order:** A shiny but false brand that respects the sovereignty of countries that are governed by Glacia's proxies<sup>3</sup>.

- 

**Proxies:** The means by which Glaia carries out its global domination project<sup>3</sup>.

- 

**Hegemonic cycles:** Cycles were carried out by Spain 15th/16th century, Holland 17th century and England 18th/19th century<sup>3</sup>.

**3. listen to 103min podcast Mees Baaijen geopoliticsandempire 20240806 book interview-global-mafia-world-domination.mp3**

**Key Takeaways:**

- 

The world has been globalized for thousands of years with capital accumulations all over the place<sup>4</sup>.

- 

Europe became the "monstrous shaper of the world" because of the rise of nations that were manipulated<sup>4</sup>.

- 

The fusion of international capital with local/national government is central<sup>5</sup>.

- 

The state has been controlled for hundreds of years and is the source of problems<sup>5</sup>.

- 

The EU is a blueprint for a totalitarian, anti-democratic, technocratic world government<sup>5</sup>.

- 

The EU's integration was financed by the CIA and state department<sup>6</sup>.

- 

The banking elite has a plan and financed Spain, Holland, and the British Empire to colonize<sup>7</sup>.

- 

World wars were organized by a consortium formed by the British Empire and the American Empire<sup>7</sup>.

- 

Hitler was set up by the Americans and the British<sup>7</sup>.

- 

The Jews were already part of this criminal game<sup>7</sup>.

**Key words:**

- 

**Glafia (Global Mafia):** A group of dynastic banking families not bound to any nation, religion, race, or ethnicity<sup>8</sup>.

- 

**Hegemons:** World leaders that oversee proxies<sup>4</sup>.

- 

**Proxies:** Countries that have been made proxies to organized crime<sup>4</sup>.

- 

**EU as Blueprint:** The EU is becoming a technocratic dystopia and is a blueprint for creating a totalitarian world government<sup>6</sup>.

- 

**Concentrated Capital:** Concentrated capitalist power means a private banking and corporate system in the hands of a few very powerful people<sup>4</sup>.

**4. listen to 105min mp3 pg31 to pg 58 predator vs people mees baaijen.mp3**

**Key Takeaways:**

- 

The Earth had to be inventoried and the newly discovered land declared private property of the discoverers<sup>9</sup>.

- 

Concentrated capitalist power means a private banking and corporate system in the hands of a few very powerful people, named Glafia<sup>10</sup>.

- 

Nation-states are controlled by a large global monopoly<sup>10</sup>.

- 

States were built in compliance with the wishes of the criminal banking system<sup>10</sup>.

- 

Capitalism is the anti-market where the great predators roam and the law of the jungle operates<sup>10</sup>.

- 

Capitalism is just a fig leaf and a mere shield; bankers are never happier than when Marxists attack capitalism<sup>10</sup>.

- 

Capitalism only triumphs when it becomes identified with the state<sup>11</sup>.

-

Warmaking and statemaking qualify as examples of organized crime<sup>11</sup>.

- 

The Italian oligarchs understood that they were starting a war on humanity and used divide and rule tactics<sup>12</sup>.

- 

Personal careers are sponsored by Gliaia, with individuals suddenly appearing in important positions<sup>13</sup>.

**Key words:**

- 

**Glaia:** A private banking and corporate system in the hands of a few very powerful people<sup>10</sup>.

- 

**Capitalism:** The anti-market where the great predators roam and the law of the jungle operates<sup>10</sup>.

- 

**Statemaking:** Warmaking and statemaking qualify as examples of organized crime<sup>11</sup>.

- 

**Deception:** The universal key method is deception, a soft power that's often more effective and much cheaper than brute force<sup>12</sup>.

- 

**Divide and Rule:** A method used to create confusion of principles which makes understanding impossible<sup>9</sup>.

**5. listen to 58min podcast Kevin Barrett interview - Mees Baaijen on “the Predators vs. the People”.mp3**

**Key Takeaways:**

- 

The book rests on three pillars of evidence: authors labeled as conspiracy theorists, respected historians saying the same thing in different terms, and people over centuries warning against the group's plan<sup>14</sup>.

- 

The only way they could control the whole world was through nation states<sup>15</sup>.

- 

The British Empire and the USA joined forces to set Europe on fire with the Zionists<sup>15</sup>.

- 

The protection racket is a mafia instrument based on deceit, creating a boogeyman and offering protection<sup>15</sup>.

- 

The Americans set up Hitler<sup>15</sup>.

- 

Competing groups are fulfilling an agenda set by a central group<sup>16</sup>.

- 

There is one agenda despite different groups; in the end, they all go for the same thing<sup>17</sup>.

- 

Jews were given a synthetic identity and bought into it, playing an important role as international proxies<sup>18</sup>.

- 

Israel is becoming an obstacle and has to be removed<sup>18</sup>.

**Key words:**

- 
- **Nation States:** Their instrument to control the whole world<sup>15</sup>.

- 
- **Protection Racket:** A typical mafia instrument where you create a boogeyman and offer protection<sup>15</sup>.

- 
- **Hegamon:** The British Empire was the third Hegamon after Spain, Holland and the USA was the first the fourth number four hegamon after Britain<sup>15</sup>.

- 
- **Synthetic Identity:** Jews were given a synthetic identity and bought into it<sup>18</sup>.

- 
- **International Proxies:** Jews were very important as international proxies<sup>18</sup>.

## 6. listen to 73min mp3 of "The Predators vs. the People" Book Review & Analysis by thefreedomarticles rumble – Parts 1 to 7.mp3

### **Key Takeaways:**

- 
- The "glafia" uses usury and control of private banking with the fractional reserve system<sup>19</sup>.

- 
- They also used menicide, the brainwashing of the mind<sup>19</sup>.

- 
- A fundamental monetary reform can remove this old and still insurmountable obstacle, yet this fact is never addressed<sup>20</sup>.

- 
- Modern democracy is based on a hidden oligarchy<sup>20</sup>.

- 
- The world capitalist system developed in four cycles led by the Genoese/Spanish, the Dutch, the British, and the United States<sup>21</sup>.

- 
- The Venetians, Genoese, and banking Jews were the reason why these nations became powerful<sup>22</sup>.

- 
- This banking cartel set up government to their liking that would basically allow them to continue this money making scheme of usury<sup>20</sup>.

- 
- The city of London is a separate entity with its own jurisdiction<sup>23</sup>.

- 
- The split with Britain was planned as temporary to aid in the preparation of the new hegemon through another republican experiment<sup>24</sup>.

- 
- China and Russia are taking the baton over for the fifth cycle<sup>25</sup>.

### **Key words:**

- 

**Glafia:** Secret network or cabal, that wants to take over the world and literally create a new world order, a one world dictatorship<sup>19</sup>.

- 

**Usury:** The charging of money with interest<sup>19</sup>.

- 

**Menicide:** The brainwashing of the mind, propaganda, mass mind control, mind colonization<sup>19</sup>.

- 

**Hegemon:** Groomed and turned into Glafia's global hegemon<sup>26</sup>.

- 

**Decolonization:** The power is moving from overt control to covert control<sup>27</sup>.

**7. listen to Mees Baaijen 50min mp3 of 3 articles including The United States of America from fake dream, to real nightmare.mp3**

***Key Takeaways:***

- 

The USA was set up as a proxy state to be the fourth hegemon after Spain, Holland, and England<sup>28</sup>.

- 

China and Russia are now taking over as the new leaders<sup>28</sup>.

- 

A global domination project was set up by Venetian, Genoese, and ex-Iberian Jewish merchants and bankers, called Glafia<sup>28</sup>.

- 

Glafia's object is to run the world as their private farm earth, with humans as cattle, based on deceit and mobile capital<sup>28</sup>.

- 

The USA, along with British and Zionist proxies, instigated the 20th century slaughter of Eurasia<sup>29</sup>.

- 

The American proxy state is no longer needed and is being scapegoated and demolished along with the rest of the West<sup>29</sup>.

- 

China, assisted by Russia, is taking over<sup>29</sup>.

- 

The bank for international settlements in Basil, Switzerland, the International Monetary Fund and World Bank in Washington DC controls our money system<sup>30</sup>.

- 

Awareness, strength as human beings, and cooperation are needed to tackle this problem<sup>30</sup>.

***Key words:***

- 

**Glafia:** Venetian, Genos, and ex-Iberian Jewish merchants and bankers<sup>28</sup>.

- 

**Proxy State:** The USA as a proxy state to make it their fourth EG after Spain, Holland, and England<sup>28</sup>.

- 

**Farm Earth:** To run the world as their private farm earth with us humans as their cattle<sup>28</sup>.

- 

**Globalization:** Civilizations with hierarchic societies and improved technologies led to globalization<sup>28</sup>.

- 

**Hegemonic Leaders:** China and Russia have since long been prepared to take the batten over from the USA as hegemonic leaders of the next version of a unipolar world order<sup>30</sup>.

# Predators vs. The People:

## A Study Guide

### I. Quiz

Answer the following questions in 2-3 sentences each.

- According to the source material, what was a key factor that transformed small nomadic communities into larger, sedentary villages?
- What is usury, and why was it historically problematic?
- How did the three Abrahamic religions initially view usury?
- What role did Jews play in money lending in Medieval Europe, and what was the consequence?
- Who were the key participants in the tripartite project aimed at developing a new lending system in Holland and England in the early 1600s?
- What is Baaijen's assessment of democracy?
- According to Mi Baaijen, how do international criminal organizations use proxies?
- What evidence is presented to suggest that the world wars were orchestrated?
- What is the "Glaflia," according to Mi Baaijen?
- Briefly outline the five stages of power transfer.

### II. Quiz Answer Key

- The revolutionary innovations of crop and livestock farming allowed many communities to become sedentary, and small villages grew bigger. This led to bartering and eventually the introduction of money, which further transformed the social structure and economy.

- Usury is the practice of lending money at interest. Historically, it was seen as problematic because it could quickly lead to unmanageable debt, destroy egalitarian societies, and concentrate wealth in the hands of a few.
- Christianity, Islam, and Judaism initially prohibited usury due to its potential to cause social and economic wreckage. While it's still forbidden in Islam today, this prohibition didn't last in the other two religions.
- Jews, often skilled in writing and accounting, were permitted to lend money in Medieval Europe when usury was forbidden for Christians. This lucrative but risky business, combined with tax farming activities, caused them to be hated by the people and often led to their expulsion.
- The participants were the ambitious Giovani faction of Venetian oligarchs as empire specialists, rich Sephardic Jews expelled from Spain and Portugal as financial specialists and opportunistic Anglo Dutch Protestant nobility and aristocracy as puppets and profiteers.
- Baaijen sees modern democracy as based on a hidden oligarchy.
- International criminal organizations, like the "Glasia," use proxies to execute their agenda. Countries are turned into proxies through infiltration, corruption of local elites, and installation of central banks controlled by these criminal organizations.
- The source material suggests that a consortium formed by the British Empire and the American Empire planned the world wars 60 years in advance. The suggestion is that they established boogymen such as Hitler.
- The "Glasia" is Baaijen's term for the global mafia that works to control world governments and financial institutions.
- The five stages of power transfer: 1) Genoies and Venice, 2) Spain, Portugal and the Jews, 3) Holland, 4) British, and 5) shifting power from the USA to the east (Russia and China).

### III. Essay Questions

Consider these questions in essay format.

- Discuss the historical role of usury in shaping global power structures. How has the perception and regulation of usury evolved over time, and what impact has this had on the distribution of wealth and influence?
- Analyze the claim that global domination is achieved through the manipulation of nation-states. How do economic, political, and social factors contribute to this manipulation, and what examples from history support this claim?
- Evaluate the argument that Russia and China are poised to become the new hegemonic leaders of a unipolar world order. What evidence supports or contradicts this claim, and what are the potential implications for global politics and economics?
- Critically assess the concept of a "benevolent multipolar world order" as presented in the source material. Is this a genuine shift towards a more equitable global system, or is it a deceptive facade concealing the continued dominance of a hidden elite?
- Explore the relationship between historical events, like the expulsion of Jews from Spain, and the rise of new financial powers. How have these events influenced the trajectory of global capitalism, and what lessons can be learned from them?

### IV. Glossary of Key Terms

- **Usury:** The practice of lending money at interest, historically viewed negatively.
- **Hegemon:** A leading or dominant power, especially a state.
- **Oligarchy:** A small group of people having control of a country, organization, or institution.

- **Proxy:** A person or country authorized to act on behalf of another.
- **Capitalism:** An economic system based on private ownership of the means of production and their operation for profit.
- **Glaflia:** Mi Baaijen's term for a global criminal organization seeking world domination.
- **Sephardic Jews:** Jews of Spanish or Portuguese origin.
- **Venetian Oligarchy:** A ruling class of wealthy families in Venice, Italy.
- **Tripartite Project:** The alliance between Venetian oligarchs, Sephardic Jews, and Anglo-Dutch Protestant nobility.
- **Multipolar World Order:** A world order in which power is distributed among several states.
- **Bretton Woods System:** The international monetary arrangements, agreed upon at Bretton Woods, New Hampshire, in 1944, that established a system of fixed exchange rates and the International Monetary Fund (IMF).
- **Fractional Reserve Banking:** A banking system in which banks hold only a fraction of their deposits in reserve and lend out the remainder.
- **Menicide:** The killing of the mind; brainwashing.
- **East India Company:** A British company established to trade with the East Indies.
- **Genoa & Venice:** Italian city-states that were early financial centers.
- **Dutch East India Company (VOC):** A chartered company established in 1602, when the States-General of the Netherlands granted it a 21-year monopoly to carry out trade activities in Asia.
- **Converso:** A Jew who converted to Christianity in Spain or Portugal, particularly during the 14th and 15th centuries.
- **Zionism:** A political movement for the establishment and support of a Jewish state in Palestine.
- **Technotronic Society:** A society that is shaped culturally, politically, socially, and economically by technology and electronics.
- **Bardi & Peruzzi Banking Houses:** Florentine banking families whose collapse in the 14th c

## Frequently Asked Questions

### 1. What is the "Glaflia" and what are its main goals?

The "Glaflia," a term coined from "global mafia," refers to a secretive, centuries-old crime syndicate composed of a few hundred dynastic, extremely wealthy families (trillions of dollars) that are not bound to any country, religion, or ethnicity. Its primary goal is global domination through financial control, political manipulation, and the establishment of a "New World Order." They seek to control nation-states and their resources by installing proxy rulers and manipulating global events.

### 2. How does usury contribute to the Glaflia's power and control?

Usury, or lending money at interest, is a key tool the Glaflia uses to gain control over individuals, businesses, and even entire nations. The compounding effect of interest allows them to accumulate vast wealth, indebt populations, and ultimately dictate policies that favor their interests. The author suggests getting out of debt and setting up interest-free money systems to combat the negative effects of usury.

### 3. What is meant by "the fusion of international capital with local government," and why is it significant?

This refers to the integration of global banking and financial power with the political structures of individual countries. The Glafia infiltrates governments, corrupts officials, and establishes financial institutions like central banks that are controlled by private interests. This fusion allows them to dictate policy, exploit resources, and maintain their dominance over nations, effectively making the countries proxies in their global scheme.

#### **4. What are the "cycles" of hegemonic power described in the sources, and how do they relate to the Glafia's strategy?**

The Glafia operates through successive cycles of hegemonic power, where they cultivate and then exploit different nations as leading world powers, or "hegemons". Beginning with Spain, then Holland, followed by England, then the USA, and supposedly China and Russia. As one hegemon declines, the Glafia shifts its resources and support to a new one, ensuring their continued control while profiting from the transitions (often through war and economic manipulation). The goal being to advance their global domination project on an ever-grander scale.

#### **5. How have the Jews been involved with the Glafia over the past 500 years and more?**

The sources suggest that selected Jewish merchants and bankers, particularly Sephardic Jews expelled from Spain and Portugal, became key financial specialists in the Glafia's project. Their capital and international networks were instrumental in the rise of Dutch and British empires. The author also states that selected Jews have been used as "international proxies" for this project.

#### **6. How does the concept of a "multipolar world order" fit into the Glafia's plans, according to these sources?**

The notion of a "multipolar world order," where power is distributed among multiple nations rather than concentrated in one, is presented as a deceptive facade. The author contends that China and Russia, despite appearing as independent actors, are being strategically positioned to take over from the USA as the next hegemon in the Glafia's scheme. The real power remains with the Glafia, who continue to control these nations from behind the scenes.

#### **7. What is the significance of central banks in the Glafia's scheme?**

The establishment of privately controlled central banks is portrayed as a crucial step in the Glafia's takeover of a nation. These banks are granted the power to create money out of nothing as interest-bearing debt, indebting governments and enabling the Glafia to control the money supply, demand banker-friendly policies and legislation, and extract wealth from the population. They're used in both the West and East (China and Russia) to fuse international capital and local elites.

#### **8. What steps can individuals take to resist the Glafia's influence and agenda?**

The sources recommend several actions, including: getting out of debt to banks, opposing surveillance technologies, turning off mainstream media and seeking independent news sources, supporting local initiatives (renewable energy, food markets), growing your own food, and engaging in peaceful action to raise awareness and challenge the

existing system. Stop projects to give all poor people in developing countries a bank account or a micro credit.

Setting up interest free money systems was also recommended.

## Timeline of Events

- **Prehistory (up to 10,000 years ago):** Humans live in small, nomadic communities based on hunting and gathering, with decisions made through consensus.
- **Around 10,000 years ago:** The development of crop and livestock farming leads to sedentary communities, bartering, and eventually the use of money (shells, clay tablets, coins). This leads to wealth inequality and the rise of usury.
- **Ancient Babylon:** First documented usurious banking practices, priests involved in banking, temples used for deposits. Periodic debt cancellations were applied to prevent social collapse.
- **Around 800 BC:** Phoenicians introduce usurious banking to Greece and Italy.
- **538 BC:** Jews return to Palestine, and the temple in Jerusalem gradually becomes a national bank.
- **Ancient Times - 64 BC:** Rise and fall of empires (Babylonian, Persian, Phoenician, Roman) with slavery as a key business. The Phoenician Maritime Empire is terminated by the Roman Empire.
- **Middle Ages:** Landed aristocracy rules Europe with feudal serfdom. Catholicism forbids usury, but Jews are often permitted to lend money, becoming skilled in writing, accounting, and tax farming.
- **1345:** The Bardi and Peruzzi banking houses of Florence collapse, marking a severe international banking crash. Venice is implicated in provoking the collapse.
- **1492-1496:** Jews are expelled from Spain and Portugal.
- **Late 15th Century:** Venice becomes the book printing capital of Europe.
- **1490s:** Venice becomes the book printing capital of Europe.
- **1516:** Jews get their own ghetto in Venice.
- **1519:** Ferdinand Magellan leads a Spanish expedition to find a route to the East Indies.
- **1522:** The surviving ship from Magellan's expedition returns to Spain, completing the first circumnavigation of the globe. Venetian oligarchs seek a new base of operations on the Atlantic coast of Europe and begin working with Protestant lands (Holland and England). Glafia project starts.
- **Around 1522:** Venice, assisted by Genoa, makes an informal alliance with ex-Iberian Jewish bankers and merchants to influence, infiltrate, and groom both Holland and England to become Protestant capitalist user-friendly and Glafia controlled nation-states.
- **1517:** Martin Luther nails his 95 theses to a German church door.
- **Around 1534:** Henry VIII abolishes the Catholic Church in England and seizes its properties, becoming head of the Church of England.
- **1550:** The Jews are banned from Genoa and Venice.
- **1568-1648:** The Eighty Years' War (Dutch revolt against Spain).
- **1600:** British and Dutch East India Companies are established with Venetian and Sephardic capital and knowledge.
- **1602:** The Dutch East India Company (VOC) is established.
- **1608:** The new BOS Exchange opens in Amsterdam.
- **1609:** Bank of Amsterdam is established, transferring Venetian banking experience to the Dutch.
- **1618-1648:** The Thirty Years' War between European Protestants and Catholics. Venice has a heavy hand in the instigation.
- **1637:** The tulip bubble collapses in Amsterdam.

- **Mid-17th Century:** Oliver Cromwell leads the takeover of Britain, financially backed by Venetian and Sephardic interests.
- **1688:** The Glorious Revolution: William III of Orange invades England, overthrowing King James II, financially backed by Venetian and Sephardic sponsors.
- **1689:** Bill of Rights is signed by King William, which ends the King's power to suspend Parliament or dispense with its laws.
- **1694:** The Bank of England is established as a private bank with a monopoly on the emission of money as interest-bearing debt.
- **18th Century:** Britain becomes the dominant world power, channeling international usury systems. Holland gradually relinquishes its primacy to England. The city of London becomes the new financial center of the world.
- **1815:** Russia creates a holy alliance with Prussia and Austria.
- **19th Century:** The Rothschild family becomes a major controller of finance capitalism, accumulating vast wealth through usury.
- **Early 20th Century:** The Rothschilds, Rockefellers, and their global corporations become extremely powerful.
- **1912:** Wall Street instigates the revolution on Sunyatsen and establishes a central bank.
- **1913:** The private USA central bank, the Fed, is established.
- **1914:** The First World War starts.
- **1940-1960:** The EU Academic papers show that over 50% of the process of EU integration was financed by the CIA and state departments.
- **1943:** Zionist Leader Groombal states: One cow in Palestine is worth more than all the Jews of Poland, and the more slaughter, the easier we'll get the land.
- **1953:** Great Flood of February in Zealand.
- **1971:** The US informal empire begins its closing phase.
- **1974:** Global decolonization happens after the socialist Carnation Revolution in Portugal.
- **1988:** Mi Bajin leads the design and development of an integrated information system for dairy farmers, advisers, and researchers in Costa Rica.
- **1999:** Mi Bajin becomes an entrepreneur and makes worldclass Jesus in the tropics.
- **2000s:** Power is transferred from the West, from the USA, to the East, Russia, and China.
- **Since 9/11:** Muslim countries are being destroyed for resistance to usury.
- **2012:** Mi Bajin starts to dig deep into the strange case of 9/11.
- **2022:** proxy war in Ukraine marks the change from a uni to a multipolar world order.
- **June 17, 2024:** Winter Oak publishes "Russia from sovereign empire to globalist proxy state" by Mi Baaijen.
- **June 22, 2024:** Mi Baaijen gives a talk on his book at a Real Lefts meeting in Stockport, Greater Manchester, UK.
- **August 6, 2024:** Mees Baaijen is interviewed on Geopolitics and Empire.
- **October 7-11:** Expat Money Summit

### Cast of Characters

- **Mi (Mees) Baaijen:** Author of "The Predators Versus the People," born in Zealand, Netherlands, survived the 1953 flood, veterinarian, lived and worked in various countries, researches history and global power structures.
- **Glafia:** Baaijen's term for the secret network/cabal (Global Mafia) that controls the world through usury, banking, and various covert methods.

- **Giovani Faction:** Ambitious faction of Venetian oligarchs who were empire specialists.
- **Sephardic Jews:** Jews expelled from Spain and Portugal, who were financial specialists.
- **Anglo-Dutch Protestant Nobility and Aristocracy:** Opportunistic individuals who served as puppets and profiteers.
- **Bankers of Babylon:** The first bankers who became so wealthy and powerful that they controlled kings and priests.
- **Venetian Oligarchs:** Supported the Protestant Reformation to divide and rule Europe.
- **Oliver Cromwell:** Led the takeover of Britain in the mid-17th century, financially backed by Venetian and Sephardic interests.
- **William III of Orange:** Dutch puppet who led an invasion army to overthrow King James II of England in the Glorious Revolution.
- **Rothschild Family:** Controlled finance capitalism during the 19th century.
- **Rockefeller Family:** American family involved with big oil companies, allied with the Rothschilds.
- **Woodrow Wilson:** US President who spoke of a hidden power controlling the United States.
- **Margaret Kennedy:** Proponent of interest-free money systems.
- **Jim McGregor:** An international researcher.
- **Wolf Gang Ephenburgger:** An international researcher.
- **Winter Oak:** Publisher of Mi Baaijen's article "Russia from sovereign empire to globalist proxy state".
- **Mikuel Thor:** Host of the Expat Money Show.
- **Ron Paul:** Speaker at the Expat Money Summit.
- **Casey:** Speaker at the Expat Money Summit.
- **Scott Horton:** Speaker at the Expat Money Summit.
- **Tom Woods:** Speaker at the Expat Money Summit.
- **Mark Fabber:** Speaker at the Expat Money Summit.
- **Tom Luango:** Speaker at the Expat Money Summit.
- **Dave:** From Anti-War, Speaker at the Expat Money Summit.
- **Kyle:** From Anti-War, Speaker at the Expat Money Summit.
- **John Perkins:** Economic hitman, former employee of the IMF and World Bank.
- **Ugo Salenas Price:** Mexican billionaire who created Electra and Banko Azteka, proponent of silver as legal tender.
- **Martin Erdman:** German theologian.
- **George Washington:** Discussed the creation of a United States of Europe.
- **Luther:** Nailed the 95 thesis on a German church door.
- **Webster Tarpry:** Researcher who understood the Venetian cycle of this project.
- **Quigley:** Understood well the British American cycle of this project.
- **Sunyatsen:** Was part of the revolution in 1912.
- **Jeffrey Epstein:** Linked to the scheme by blackmailing the corrupted and corrupted elites.
- **Aldo Huxley:** Coined the term the final revolution.
- **Frederick Barbarossa:** German king who wanted to create a big empire in Europe.
- **Fernand Braudel:** French historian.
- **Giovanni Arigi:** Student of Fernand Braudel.
- **Columbus:** Voyage under the Spanish charter was financed by converso Jews.
- **Aristotle:** Greek philosopher.
- **Ferdinand Magellan:** Portuguese captain who circumnavigated the globe.

- **Charles Tilly:** Founding father of 21st century sociology and one of the world's pre-eminent sociologists and historians.
- **John A. Hopson:** Very influential classical anti-imperialist.
- **Nicolo Machaveli:** Italian author.
- **Decider Arasmus:** Dutch philosopher.
- **Karl Marx:** Described the capital wealth of Holland and the shift from England to the United States.
- **Hapsburg, Spain:** King during 1516-1700.
- **KL Marx:** Who actually knew a lot of what was going on even though he only wrote about something that was kind of a superficial ideological battle.
- **Theodore Hertz:** States that the wealthy Jews rule the world.
- **Wernern Sombert:** States that these men exercise a greater influence over economic conditions than any potentate ruler or government. They are the world's real autocrats.
- **Victor Astroski:** States that Mosads motto is by way of deception, thou shalt do war.
- **Paul Warburg:** Declared that we shall have world government whether or not we like it.
- **Draeli senior:** States there was a series of revolutions.
- **Joseph de la ca:** States that in confusion to confusions with the national debt arose an international credit system.
- **Shakespeare:** Said all the worlds a stage and all men are women are merely players.
- **GioVanni:** Leading state building.
- **Queen Juliana of Orange:** Was considered the richest woman in the public world.
- **Maxima of Argentinian descent:** Queen who has been promoting Galia projects.
- **Queen Juliana of Orange:** Was considered the richest woman in the public world.
- **\*\*Andre Fersov:\*\*** Leading Russian Historian who Comments on Larouche.
- **G. Edward Griffin:** Associated with Lyndon Larouche.
- **Webster Tarpley:** Associated with Lyndon Larouche.
- **Matthew Erritt:** Associated with Lyndon Larouche.
- **John T. Flynn:** Revealed the treasonous and corrupt role of President FD Roosevelt
- **Eustace Bullins:** A pioneer in the unmasking of the Glafia project, wrote about the secrets of the Federal Reserve.
- **William, the prince of Orange and Nassau:** A firdom in southern France.
- **Zelonsky:** Buying large quantities of diesel from the Russians to keep his army going.
- **Scott Ritter:** States that Israel is in checkmate.
- **Greta Thunberg:** Example of spectacularly soaring political career.
- **Justin:** Example of spectacularly soaring political career.
- **Jinda Ardurn:** Example of spectacularly soaring political career.
- **Maung:** China was first put in the common Fritz.
- **Russell King:** Author of a book about this.
- **Satanic banking evil cabal:** Wants to take over the world and literally create a new world order, a one world dictatorship.
- **Thomas Jefferson:** Warned that it would spell the end of of the nation if the American people were allowed private central banking.
- **Andrew Jackson:** Warned that it would spell the end of of the nation if the American people were allowed private central banking.
- **Imam Kumeni:** Has a fatwa that has been reiterated by the current supreme leader Hmon that bans weapons of mass destruction as an abomination.

- **Alexander one of Russia:** Saw through what was set up and the Rothschilds became so angry that they vowed to destroy the Sar's whole family which indeed happened through Jewish hands in 1918.
- **Bismar:** Leader of Prussia Germany in 1871, renewed the holy alliance with Russia, Prussia pre-Germany and Austria.
- **Gerta:** The German poet who stated that none is so hopelessly enslaved as those who falsely think they are free.
- **Zionist Leader Groombal:** Stated that one cow in Palestine is worth more than all the Jews of Poland, and the more slaughter, the easier we'll get the land.

I hope this detailed timeline and cast of characters is helpful for your understanding of the sources.

#### Summary

This audio transcript from "Baaijen, New Dawn.mp3" presents a critical view of global power structures. It argues that **elites, particularly "banksters," have historically manipulated events** to consolidate wealth and control, often through usury and engineered conflicts. The text traces this influence from ancient Babylon to modern times, emphasizing the **hidden role of finance in shaping empires and political upheavals**, such as the World Wars and the rise of China. It contends that these elites operate beyond national loyalties, using nations as "pieces on a chessboard." Ultimately, the source calls for **awareness and action to reclaim sovereignty, promote peace, and challenge the dominance of big banks and corporations**, advocating for a shift towards systems that prioritize life over profit and reduce dependence on centralized power.

#### Summary

This text, "Russia, from sovereign empire to globalist proxy state," argues that **Russia has transitioned from a genuinely independent power to a tool of a hidden global elite** referred to as "Glaia," a "crime syndicate." The author posits that **Glaia has orchestrated various historical events**, including revolutions and wars, using different nations like Spain, Holland, England, the USA and now Russia as proxies to establish a "unipolar world order" disguised as a "multipolar" one. Ultimately, the piece claims that **Russia, despite appearances, serves this globalist agenda**, cooperating in initiatives like digital surveillance and the Ukraine war for the benefit of this secretive group. The author aims to expose this hidden control and challenge pro-Russian narratives prevalent among some anti-globalist circles.

#### Summary

This podcast excerpt features an interview with Dr. Andrew Kaufman, who challenges the conventional understanding of viruses and disease. The discussion centers around **whether SARS-CoV-2 exists** and expands into a broader critique of virology, questioning the evidence for the existence of other viruses like measles, smallpox, and polio. Kaufman argues that **the claims that viruses cause disease are baseless** and that alleged viral sequences could stem from other sources. The conversation navigates through various scientific papers and experiments, highlighting **the debate about the methods used to identify and characterize viruses**, and delves into how these findings relate to health policies and mortality during the pandemic.

Global Mafia Project

#### Summary

This audio transcript dissects the conventional narrative of civilization's progression from early societies to empires. It challenges the accepted timeline and explores alternative theories about civilization's origins, while emphasizing **the integration of religious mythology within early power structures**. A central theme is the **rise of globalization, predating common assumptions** and driven by extensive Afro-Eurasian trade networks that fostered multiculturalism. It traces the evolution of finance, from ancient usurious practices to modern banking, and it exposes how **powerful banking families, or "Glafia," have covertly influenced nation-states for centuries**. The transcript presents an alternative historical viewpoint which claims that a few powerful people have long engineered global domination through the manipulation of banking systems, and that today we see a modern form of this domination.

Phoenician influence

Rise of Glafia

#### Summary

This source presents an interview with Mees Baaijen on the "Truth Jihad Radio" podcast, discussing his book *The Predators vs. the People*. Baaijen argues that a **"global mafia"** has been manipulating world events for 500 years, using usury and other means to establish a one-world government. The discussion explores the evidence for this claim, citing historians, "conspiracy theorists," and historical figures who have warned about a hidden group seeking global control. **The interview delves into the role of 9/11 as a triggering event for Baaijen's research, the fusion of state and capital, the control of China and Russia, and the ultimate question of the nature and purpose of evil.** It ends discussing Israel's eventual removal in the group's plan, Jewish people as proxies, and all of modern geopolitics as "theater" that allows us to develop by confronting evil.

9/11 Attacks

Secret Conspiracy

Global Mafia

Usury Power

Jewish People

## Summary

This multi-part audio series, "The Predators Versus the People" book review by Makia Freeman, unpacks a Dutch author's analysis of the last 500 years of human history. The core argument posits the existence of a secret cabal, referred to as the **"Glafia" (Global Mafia)**, that has systematically sought world domination through **usury, fractional reserve banking, and "menicide" (mass mind control)**. The series outlines five stages of power transfer: from the city-states of Genoa and Venice, to Spain and Portugal, then to Holland and England, followed by the USA, and finally, the current shift towards the East (Russia and China). Freeman highlights how this cabal, throughout history, has exploited nations, manipulated ideologies (like capitalism, communism, and various "isms"), and instigated wars to achieve its goals, ultimately aiming for a **one-world dictatorship**.

This source presents a conspiracy theory asserting that a **secret, 500-year-old globalist organization, "Glafia,"** has been manipulating world events through various hegemonic powers, including Spain, Holland, England, and the United States. The author argues that the **USA was a proxy state** used by Glafia to advance its agenda of global domination and is now being replaced by **China and Russia** as the new hegemonic forces. According to the text, this transition is orchestrated under the guise of a **"multipolar world order"** while Glafia simultaneously works towards a "global digital prison" through technological control. The author urges readers to become aware of this alleged conspiracy and resist Glafia's plans.

## **TRANSCRIPT OF LM AI PODCAST**

Welcome to the dailybriefs.info. Lenny and Maria Miesbajian, deep dive podcast show. Yes. Today, we're diving into something Okay. That sounds kinda like a spy thriller.

Oh. A centuries long project for world domination. Wow. Orchestrated by a global mafia or as Miese Bejan called it, Galafia. What's fascinating here is we're not talking about your typical conspiracy theories.

Right. It's not about, you know Yeah. Aliens or secret societies in the shadows. Right. This is meticulous research connecting the dots between historical events, economic strategies Yeah.

The rise and fall of empires. And what's really surprising is that mainstream historians and economists Yeah. Have unknowingly documented pieces of this project. Yeah. But they just haven't put it all together.

They haven't seen the whole picture. East Bayesian gives us that. The wider perspective. Exactly. So where does this story even begin?

Well, our journey starts about five hundred years ago Okay. In the city states of Genoa and Venice. Got it. This is where the new elite emerged. Yeah.

The capitalist oligarchs Uh-huh. The merchants and the bankers who laid the groundwork for glafia's rise. So you're talking about, like, the foundation of modern capitalism. Exactly. Okay.

These early capitalists pioneered a strategy for world domination that relied on four key pillars. Okay. Accumulating capital Uh-huh. Concentrating it Okay. Mobilizing it for investments Okay.

And then using banking as the primary tool for control. So it's not just about wealth. It's about using that wealth to get power and influence. That's right. Okay.

Exactly. Do you have a concrete example of how this happened in history? Look. Let's consider the Genoese bankers and their relationship with the Spanish empire. Okay.

Spain, at the time, was one of the most powerful empires in the world. Mhmm. They were flushed with gold and silver from their conquest in The Americas. Right. But the Genoese bankers Yeah.

Through clever manipulation of loans and debt Okay. Essentially gained control over Spain's finances. Wow. And they funneled a large portion of that wealth back to Genoa. So they were the ones really profiting from Spain's conquests They were.

Even though they weren't out there conquering new lands. Exactly. That's a powerful form of control. It's invisible control. Yeah.

Achieved not through military might, but through finance. Right. They became the puppet masters Uh-huh. Pulling the strings. Now this is where things get even more interesting.

Okay. Mies Baigent adds a second thread to the story. Okay. One that might raise some eyebrows. He brings in the Sephardic Jews who were expelled from Spain and Portugal during the inquisition.

Uh-huh. And many of these Sephardic Jews had valuable skills in finance and trade Right. And they ended up joining forces with the Genoese and Venetian banking families. I could see how that connection might make some people uncomfortable. Yes.

And it's important to be careful here. Absolutely. We need to emphasize that this isn't about blaming an entire group of people. Yeah. It's about understanding how specific groups with specific skills and knowledge fit into this larger power structure.

It's not about making blanket statements Okay. But about tracing the lineage of ideas and influence. Nuance is key when you're dealing with these sensitive topics. Absolutely. So how do these two threads, the Italian bankers and the Sephardic Jews, come together to further this project of world domination?

Well, let's think about Christopher Columbus. Okay. His voyages, which led to the discovery of The Americas and reshaped history Right. Were financed in part by Converso Jews. Okay.

Some with ties to those Genoese banking families. So we're talking about a level of financial reach and influence that crossed continents even back then. Exactly. And some researchers speculate that Columbus may have used ancient maps and navigational knowledge My wife. Passed down through these Sephardic Jewish networks Interesting.

Knowledge that gave him an edge in his explorations. So it wasn't just about money. It was about access to knowledge and using that knowledge to gain an advantage. That's right. What happens next?

Does it stay centered in Italy? No. It doesn't. As the world shifted from feudalism to capitalism, this project also shifted its base of operations. Okay.

Moving north first to Holland and then to England. Okay. These countries were at the forefront of this economic transformation. Yeah. Anglophilia, always adaptable, moved with the tide.

So they go where the power is, where the opportunity is. Precisely. And this is where we see institutions emerge Yeah. That perfectly embody Glaphia's strategy of fusing state power with private capital. Institutions like the Dutch East India Company and the Bank of England Right.

Become key players in this game. So it's not just about controlling the money. It's about controlling the institutions that shape global trade Yes. Finance and politics. You got it.

And what's fascinating is that even Karl Marx, writing in the nineteenth century Uh-huh. Recognized this pattern of capital moving from one dominant power Yeah. To the next. Yes. He even predicted the rise of The US as the next superpower He did.

Aligning with Glaofia's trajectory. That's right. So even Marx, who critiqued capitalism, could see the chessboard that Glaive was playing on. He could. He understood the flow of power Yes.

Even if he didn't see the hidden hand orchestrating it. Exactly. And to solidify their control over England Yeah. The Glorious Revolution of sixteen eighty eight was orchestrated At least in part. To install a system that was favorable to usury Uh-huh.

A key tool in Glaufia's arsenal. That's right. So they weren't just influencing events. They were shaping the rules of the game. Yes.

It's like they're playing chess while everyone else is playing checkers. A very apt analogy. Okay. They're always thinking several moves ahead. Uh-huh.

Anticipating shifts in power, manipulating events to their advantage. Right. They understand that true power lies in shaping the systems and institutions that govern the world. And with England under their influence, they set their sights on their next target. The burgeoning United States Of America.

That's a great place to pause for now. Okay. We'll pick up the story of the American hegemon and Glaphia's plan in the next part of our deep dive. Sounds good. The United States, with its vast resources and potential Right.

Was ripe for Glafia's influence. Okay. They saw in this young nation the opportunity to create a new global hegemon. Yeah. One that would further their ambitions on a grander scale.

So how did Glafayette go about shaping The US to fit their needs? Well Did they orchestrate specific events, or was it more about subtle influence over time? It was a combination of both. Okay. They certainly played a role in key historical events.

Yeah. But their influence was often subtle Right. Working through networks of power Yeah. Manipulating financial systems to achieve their goals. Okay.

Remember their modus operandi is about invisible control Yeah. Shaping the world from behind the scenes. Miese Biehn makes a pretty bold claim. He does. He argues that the two world wars of the twentieth century weren't just tragic accidents Right.

But carefully orchestrated events to further Glafia's agenda. That's one of the most unsettling aspect of his research. Yeah. He presents compelling evidence that these wars were in fact planned well in advance Wow. With key players on both sides being manipulated Uh-huh.

To serve Galafia's goals. That's chilling. He even cites a book published in eighteen fifty three k. Decades before World War one. Wow.

That lays out a plan eerily similar to the events that would unfold in the twentieth century. That suggests a level of foresight and strategic planning that's hard to fathom. It is. But what would Glaafia gain from orchestrating such devastating conflicts? Well, wars, as horrific as they are Right.

Create opportunities for profit Okay. And consolidation of power. Right. And consolidation of power. Right.

Glaefje understood that by controlling the flow of money and resources during wartime Yeah. They could enrich themselves while simultaneously reshaping the geopolitical landscape to their advantage. Miese Baigent provides some startling examples of this manipulation. Right? It does.

Like what? One striking anecdote Yep. Involves an American intelligence officer Uh-huh. Who interviewed Adolf Hitler back in 1922, years before Hitler's rise to power. So they were cultivating these figures They were.

As boogeymen Yes. To create the conditions for conflict. Exactly. And this manipulation wasn't limited to Germany, was it? No.

It wasn't. Okay. Mies Baigent argues that the communist threat Right. Which dominated the latter half of the twentieth century Uh-huh. Was also carefully engineered by Latvia Right.

To control Russia and China. Right. Two countries that posed a potential challenge to their dominance. So they're playing both sides They were. Manipulating entire ideologies and political systems Makes a test.

To serve their agenda. Yes. It's like a global game of chess with Galapia as the grand master. That's a great way to put it. Always thinking several moves ahead.

They understood that controlling the narrative Yeah. Shaping the way people think about the world Right. Was just as important as controlling armies and economies. But if Glaphia has been so successful at remaining hidden Yeah. Pulling the strings from behind the scenes, how do we even know they exist?

That's where Miesbadian's research is so compelling. Okay. He's not relying on fringe theories or speculation. Alright. He's drawing on mainstream historical and economic sources Okay.

Piecing together a narrative that's been hidden in plain sight. So he's using the very sources that have been used to construct our conventional understanding of history. He is. To deconstruct it. Yes. To reveal a deeper, more disturbing truth. Exactly.

And the pattern becomes undeniable once you start looking for it. It does. Like, remember those English revolutions we talked about earlier? Yes. The ones that helped establish England as a global hegemon.

Right. The glorious revolution of sixteen eighty eight comes to mind. Well, Mies Bajan highlights Yeah. How even mainstream historians Right. Like Archibald Ramsay Uh-huh.

A British military officer and member of parliament Okay. Acknowledge that these revolutions were part of a larger series of orchestrated events. A series that's still unfolding today. So they weren't isolated events. They were They were carefully orchestrated moves in a much bigger game.

Exactly. And these moves often involve violence and upheaval. They did. Miesbadian points out that a British general recently admitted Okay. That the current conflict in Ukraine is a proxy war.

Mhmm. A conflict fueled by external forces with their own agendas. That's a rare moment of honesty from the establishment. It is. And this submission ties directly back to Glaphia's modus operandi.

Right. Like how they use Germany as a boogeyman in the twentieth century Exactly. Trading the conditions for war and profiting from the chaos. That's right. They're using the same playbook today Uh-huh.

Creating a new boogeyman in Russia Yes. To justify conflict and further their agenda. That's the idea. It's a cynical and dangerous game they're playing It is. Using people's lives as pawns Yes.

On a geopolitical chessboard. And their manipulation extends beyond warmongering. Right. Nies Baigent also exposes how they've used economic control to manipulate entire countries. Bringing them to heel when they stray too far from the Glaphia approved path.

Do you have an example of that? Take Portugal after the Carnation Revolution in 1974. Okay. This revolution Uh-huh. A rare event that wasn't directly orchestrated by Glaphia Okay.

Led to a brief period of socialist experimentation in the country. But that didn't last long, did it? No. It didn't. Okay.

Within a few years, those socialist experiments were strangled and abandoned. Wow. Portugal was brought back into line, and the old oligarchy overseen by Glaafia regained control. So even when people try to break free Yes. To chart a different course Right.

Glaafia finds a way to pull them back in. That's the disturbing truth. Yeah. They control the money. Wow.

They control the institution. Right. And they control the narrative. Wow. But Mies Biogen suggests that there's something even deeper at play here, something beyond just greed and power.

What do you mean? He argues that this project Uh-huh. This centuries long quest for world domination is rooted in a particular world view. Yeah. Yeah.

A materialistic philosophy Right. That has been carefully cultivated over generations. So it's not just about controlling the physical world. No. It's about controlling the minds of the people.

Exactly. That's scary. They've used mind control techniques, propaganda, carefully crafted ideologies to shape our perceptions and beliefs Yeah. To mold us into compliant consumers and obedient citizens. That's where the concept of menticide comes in.

Right? Yes. The killing of the mind. Niece Beijon highlights how they've hooked us Yeah. On ideologies like consumerism Right.

Workism and transhumanism, effectively colonizing our minds and disconnecting us from our true selves. So we're trapped in a system designed to keep us consuming Yes. Working Mhmm. And ultimately distracted from the true nature of reality. That's the insidious brilliance of their plan.

Wow. It's a self perpetuating system Yeah. That feeds off our ignorance and complacency. And we're so caught up in our day to day struggles that we don't even realize we're being manipulated That's right. On such a grand scale.

That's the challenge, isn't it? Yeah. Waking people up Uh-huh. To a reality that seems too unbelievable to be true. It does.

But even if we accept that Dysclafia exists Right. Even if we see the strings that are being pulled Yeah. Is there any hope of defeating them? That's a question a lot of people are probably asking themselves. It is.

Is there any point in fighting back if the game is rigged? Right. I guess that's what we'll explore in the final part of our deep dive. So it feels like we've uncovered this vast web of control. It is complex.

But is there any way to break free? It's a question that Misesby Jen really struggles with Yeah. Throughout his work. Right. He doesn't offer easy answers or solutions Right.

But he does offer a glimmer of hope. Okay. He argues that glafia's power for all its reach Uh-huh. Is ultimately rooted in deception. Okay.

They rely on our ignorance Right. Our complacency Yeah. Our willingness to believe the narratives that they've constructed. So if their power depends on our compliance, then breaking free starts with awareness Yes. With seeing the world through a new lens Exactly.

Recognizing the patterns of manipulation that have been hidden in plain sight. Miespajin's research is like a set of x-ray glasses. Mhmm. Allowing us to see the skeletal structure of power. Okay.

The hidden mechanisms that drive events on the world stage. Right. Once we see the strings that are being pulled Yeah. It becomes harder to ignore them. Right.

Harder to pretend that we're not part of this system. But awareness alone isn't enough. It's not. We can't just sit back and say, well, now I know the truth Right. And expect things to change magically.

Right. What can we do to challenge this system Right. To break free from its grip? Mies Baigent advocates for a multi pronged approach. Okay.

One that combines personal transformation with collective action. Okay. He emphasizes the importance of building local communities. Supporting alternative media sources Right. And fostering economic independence.

Right. These are all ways of reclaiming our power Yeah. Of creating systems of support outside of the glafia controlled structures. It's about building parallel systems. It is.

Creating alternatives to the dominant paradigm. Exactly. But it also sounds like a lot of work. It is. A David versus Goliath battle against a deeply entrenched power structure.

It's certainly not easy. Yeah. But remember, David did win. Right. And throughout history, we've seen seemingly insurmountable powers crumble Right.

When enough people wake up and demand change. It's so true. Niece Bae Jin's work is a reminder that we're not powerless. Okay. That the future is not predetermined.

Right. We have the agency to to shape our own destiny, both individually and collectively. That sense of agency and empowerment is crucial. It is. Because if we believe that we're just pawns in a game rigged against us Right.

Then why even bother trying? Exactly. But if we recognize our own power, our ability to make choices and take action Mhmm. Then even small acts of resistance can have a ripple effect. Absolutely.

One of the most important things we can do is to start questioning everything Yes. To challenge the narratives that we've been fed That's right. To think critically about the world around us. Yes. Don't just accept things at face value.

Right. Dig deeper. Ask questions. Exactly. Seek out alternative perspectives.

It's about reclaiming our critical thinking skills Yes. Which have been systematically eroded by these very forces we're discussing. It's about becoming informed, discerning citizens Yeah. Who can see through the propaganda and make decisions based on our own values Right. Not the values that have been imposed upon us.

That's a key point. Emphasizes the importance of rediscovering our spiritual connection Okay. Of recognizing that we're not just material beings driven by greed and consumption. Right. We're spiritual beings having a human experience.

Uh-huh. And we have the the capacity for love, compassion, and creativity. You know, it's by tapping into that deeper dimension of ourselves Okay. That we can find the strength and resilience to challenge the forces that seek to control us. So it's about cultivating our inner strength.

It is. Our connection to something greater than ourselves Yes. In order to face the outer challenges that confront us. That's it. It's about recognizing that true power doesn't come from dominating others Right.

But from mastering ourselves. At least. And that's ultimately what Miese Bajan's work is calling us to do. It is. To master ourselves.

Yeah. To awaken to our true potential. Uh-huh. And to create a world that reflects our highest values. This deep dive has been both enlightening and unsettling.

It has. It's challenged my assumptions about the world. Me too. And left me with more questions than answers. Yeah.

But it's also given me a renewed sense of hope. Okay. Belief that we're not just passive victims of history. Right. That we have the power to shape our own future.

And that's the most important takeaway. It is. Knowledge is power, but only if we act on it. That's right. BizBuyJenna has given us the tools to see the world with new eyes.

Uh-huh. Now it's up to us to use those tools to create the world we wanna see. Exactly. Thank you for listening to another session of the Lenny and Maria Deep Dive podcast show.
